

Year 2 Geography Knowledge Organiser- Continents & Oceans

What should I already know?	Vocabulary	Important facts																																										
<p>I live in the United Kingdom. I live in London and London is a city. The United Kingdom is made up of England, Wales, Scotland and Northern Ireland. There are different Seasons such as Spring, Summer, Autumn and Winter.</p> <div data-bbox="103 777 133 850" style="writing-mode: vertical-rl; transform: rotate(180deg);">Maps</div> 	<table border="1"> <tr><td>Antarctic</td><td>a polar region in the South Pole</td></tr> <tr><td>Arctic</td><td>a polar region in the North Pole</td></tr> <tr><td>Beach:</td><td>a landform by the sea, usually sand and/or rock</td></tr> <tr><td>Cliff:</td><td>a vertical or near vertical rock feature, usually on the coast</td></tr> <tr><td>Coast:</td><td>the region where land meets sea</td></tr> <tr><td>Continent</td><td>land mass defined by physical, human, or cultural features: Europe, Africa, Antarctica, Asia, Oceania, North America or South America</td></tr> <tr><td>Country</td><td>Political area defined by physical, human or cultural features</td></tr> <tr><td>Desert</td><td>a dry area of land which receives very little rain or precipitation</td></tr> <tr><td>Endangered</td><td>a species which is at risk of becoming extinct</td></tr> <tr><td>Equator</td><td>imaginary line around the middle of the Earth where day and night are almost equal, and there is little change in season; some areas have a dry season and wet season</td></tr> <tr><td>Forest</td><td>large area covered with trees</td></tr> <tr><td>Migration</td><td>the movement of people or animals from one place to another</td></tr> <tr><td>Mountain</td><td>large landform, often with a peak, rising and earth rising high above the surrounding area; higher and steeper than a hill</td></tr> <tr><td>North, South, East, West</td><td>compass points, locational vocabulary</td></tr> <tr><td>North Pole</td><td>the most northerly place of the Earth</td></tr> <tr><td>Seasons</td><td>a time of year marked by certain conditions: spring, summer, autumn, winter</td></tr> <tr><td>Symbol</td><td>picture on a map to show a feature on a map</td></tr> <tr><td>Village:</td><td>a place where people live, smaller than a town.</td></tr> <tr><td>Weather</td><td>conditions in the atmosphere on a particular day, such as temperature, windiness, rainfall, hours of sunshine or cloud cover.</td></tr> <tr><td>Wild</td><td>land not farmed, used for parks or gardens, or built on</td></tr> <tr><td>Wood:</td><td>land covered with trees, smaller than a forest.</td></tr> </table>	Antarctic	a polar region in the South Pole	Arctic	a polar region in the North Pole	Beach:	a landform by the sea, usually sand and/or rock	Cliff:	a vertical or near vertical rock feature, usually on the coast	Coast:	the region where land meets sea	Continent	land mass defined by physical, human, or cultural features: Europe, Africa, Antarctica, Asia, Oceania, North America or South America	Country	Political area defined by physical, human or cultural features	Desert	a dry area of land which receives very little rain or precipitation	Endangered	a species which is at risk of becoming extinct	Equator	imaginary line around the middle of the Earth where day and night are almost equal, and there is little change in season; some areas have a dry season and wet season	Forest	large area covered with trees	Migration	the movement of people or animals from one place to another	Mountain	large landform, often with a peak, rising and earth rising high above the surrounding area; higher and steeper than a hill	North, South, East, West	compass points, locational vocabulary	North Pole	the most northerly place of the Earth	Seasons	a time of year marked by certain conditions: spring, summer, autumn, winter	Symbol	picture on a map to show a feature on a map	Village:	a place where people live, smaller than a town.	Weather	conditions in the atmosphere on a particular day, such as temperature, windiness, rainfall, hours of sunshine or cloud cover.	Wild	land not farmed, used for parks or gardens, or built on	Wood:	land covered with trees, smaller than a forest.	<p>Asia is the largest continent. It has the biggest land area and the world's biggest population. Oceania/Australia is the smallest continent of the planet. Africa is the continent that has the most countries. There are 54 countries on the African continent. North America is a continent which is located entirely on the northern and western hemisphere. There are 23 countries in total on the North American continent. South America has 12 countries. Its largest country is Brazil. Europe houses the two smallest countries in the world: Vatican City which is located inside Rome/Italy and Monaco which is bordered on three sides by France. The most languages are spoken in Asia - over 2 300 languages! Antarctica is the smallest continent by population numbers. This means the huge continent is only sparsely populated. On Antarctica there are only research stations for scientists and no permanent settlements. Antarctica is covered almost completely by ice. 90% of the planet's ice is located on this continent, which also makes up 60% - 70% of the world's freshwater supply.</p> <div data-bbox="2309 1428 2834 1480" style="background-color: #e91e63; color: white; text-align: center; padding: 2px;">Quiz</div> <ol style="list-style-type: none"> 1. Can you name all 7 continents of the world? 2. Can you name all 5 oceans of the world? 3. Which continent is the United Kingdom located in? 4. Which continent is India located in? 5. What ocean separates Europe and North America?
Antarctic	a polar region in the South Pole																																											
Arctic	a polar region in the North Pole																																											
Beach:	a landform by the sea, usually sand and/or rock																																											
Cliff:	a vertical or near vertical rock feature, usually on the coast																																											
Coast:	the region where land meets sea																																											
Continent	land mass defined by physical, human, or cultural features: Europe, Africa, Antarctica, Asia, Oceania, North America or South America																																											
Country	Political area defined by physical, human or cultural features																																											
Desert	a dry area of land which receives very little rain or precipitation																																											
Endangered	a species which is at risk of becoming extinct																																											
Equator	imaginary line around the middle of the Earth where day and night are almost equal, and there is little change in season; some areas have a dry season and wet season																																											
Forest	large area covered with trees																																											
Migration	the movement of people or animals from one place to another																																											
Mountain	large landform, often with a peak, rising and earth rising high above the surrounding area; higher and steeper than a hill																																											
North, South, East, West	compass points, locational vocabulary																																											
North Pole	the most northerly place of the Earth																																											
Seasons	a time of year marked by certain conditions: spring, summer, autumn, winter																																											
Symbol	picture on a map to show a feature on a map																																											
Village:	a place where people live, smaller than a town.																																											
Weather	conditions in the atmosphere on a particular day, such as temperature, windiness, rainfall, hours of sunshine or cloud cover.																																											
Wild	land not farmed, used for parks or gardens, or built on																																											
Wood:	land covered with trees, smaller than a forest.																																											
<div data-bbox="682 1108 801 1144" style="text-align: center;">Diagrams</div> <div style="display: flex; justify-content: space-around;"> <div data-bbox="103 1165 652 1564">  <p style="text-align: center;">NORTHERN HEMISPHERE</p> <p style="text-align: center;">SOUTHERN HEMISPHERE</p> </div> <div data-bbox="860 1176 1305 1522"> <p style="text-align: center;">North</p> <div style="text-align: center;"> + </div> <p style="text-align: center;">South</p> <p style="text-align: center;">West East</p> </div> </div>																																												
<div data-bbox="549 1570 934 1606" style="text-align: center;">Geographical Skills and Enquiries</div> <ul style="list-style-type: none"> • To use simple compass directions (north, south, east and west) and locational and directional language [for example, near and far, left and right], to describe the location of features and routes on a map • To use world maps, atlases and globes to identify the countries, continents and oceans • To identify the location of hot and cold areas of the world in relation to the Equator and the North and South Poles 																																												

St Robert Southwell Catholic Primary School

Aiming For Excellence - Being The Best We Can Be

Following Jesus' footsteps and inspired by St Robert Southwell we work hard, aim high and treat everyone with honesty and gentleness.
